For Mechanical & Electrical Schedule :-

1. The maintenance schedule shall be read in conjunction with the manufacturer's recommended maintenance schedule, with the more stringent requirements / portions taking precedence. Any manufacturer's requirements not listed in this schedule shall be complied with.
2. All tests and measurements shall be recorded whether or not the word 'record' is indicated.
3. The battery and battery charger maintenance schedule shall be complied with for all batteries and battery chargers.
4. The work for the Y and 2Y maintenance schedule shall be carried out at the 6th and 18th month respectively.
